FRYING PAN BODY	Aluminum
FRYING PAN HANDLE	Bakelite
FRYING PAN INTERIOR COATING	Titanium coating
FRYING PAN EXTERIOR COATING	Ceramic coating

Durable ceramic coating on pots

Ceramic coating is corrosion-resistant to strong salt and spicy red sauces commonly found in Korean food. It can be easily washed with water.

Long-lasting and non-stick titanium coating on frying pans

Titanium coating is a non-stick coating and doesn't easily come off thanks to strong durability.

Safe angle design and wide and comfortable hand grip

Safe angle design far from the heat, wide and comfortable hand grip makes it safe and easy to handle even without oven mitts.

High versatility

IH technology makes them versatile across all heat sources including induction.

Decore

Create a stylish kitchen of your own with Decore coming with the eye-catching vintage color and retro design. With corrosion-resistant and non-stick coating, Decore becomes best cooking companions in your kitchen.
